Acer Debuts World's First 6,000 Lumens Single Lamp Projector

Extreme Brightness for Hard-Hitting Presentations

TAIPEI, TAIWAN (June 25, 2012) – Acer introduces world's first 6,000 lumens professional projector, the P7215, using a single lamp. This projector is very eco-friendly, delivering light for up to 2,000 hours while using 350 watts, reducing power consumption and maintenance costs.

Acer's P7215 comes with convenient settings and upgraded features that improve usability and presentation flexibility. It features native 1024x768 (XGA) resolution and support for up to Full HD signal, delivering crisp, vibrant details and amazing color. In addition, this projector is DLP 3D Ready and offers advanced firmware that enables high refresh rates (120 Hz) to render flicker-free 3D experience.

The P7215 also boasts Crestron® network control and connectivity options such as HDMI®, DVI, LAN and dual D-Sub ports, making it a high impact tool for professional users in large venues. Furthermore, with Acer's top-loading lamp design, users can replace the lamp in just a few simple steps, even when the projector is ceiling-mounted.

Acer's projectors aim to promote green light source technology without compromising performance. In addition to the P Series for professionals, there is a full range of lineup to cater for consumers' needs: C Series for on-the-go, H Series for home entertainment, K Series for laser-LED hybrid, and X Series for normal usage.

About Acer

Since its founding in 1976, Acer has broken barriers between people and technology, enabling users to explore, create and grow. Acer ranks No. 2 for notebook PCs globally (Gartner data 2011). The Acer Group employs 8,000 people across the globe, and revenues for 2011 reached US$15.7 billion.

Acer's channel business model is instrumental to the company's success, while its multi-brand approach integrates Acer, Gateway, and Packard Bell brands in worldwide markets. Acer designs environmentally friendly products and, with its vendors, has established a green supply chain.

Acer is proud to be a Worldwide Partner of the Olympic Movement. That includes supporting the Vancouver 2010 Olympic Winter Games and London 2012 Olympic Games.
